GEORGINA TURTLE

SKU: PW-GEOPAU-010-SV

Georgina sea turtle paperweight is made by hand using the perfect natural convex shaped of the paua shell to create the swimming turtle's shell back. The iridescent colours of the shell are reminiscent of the ocean and the under water world.

The turtle's body is first sculpted then cast in brass and heavily silver plated. The turtle is then fitted to an exotic, highly polished paua (Abalone) shell.
